

ELSA GEORGE

Athens, GA 30605

elsageorgedev@gmail.com +1 (470) 380-1906 [LinkedIn](#)

EDUCATION

UNIVERSITY OF GEORGIA, TERRY COLLEGE OF BUSINESS, Athens, GA August 2026-May 2028

MBA – Strategy, Artificial Intelligence / MS- Business Analytics (STEM Certified)

Forté Scholar, Terry Excellence Scholarship, Full-tuition Graduate Assistantship, Consulting Club

NATIONAL INSTITUTE OF TECHNOLOGY, Calicut, India

July 2019-June 2023

B. TECH – Electrical and Electronics Engineering

Scholarship Program for Diaspora Children (SPDC) Scholar, Class Representative, Semester 1

AWARDS & RECOGNITIONS: National Business Analytics Case Competition Winner; Best Speaker Award

WORK EXPERIENCE

AMERICAN EXPRESS, Bengaluru, India

May 2022-April 2026

Engineer II (April 2025-April 2026)

- Evaluated operational bottlenecks across enterprise release workflows and drove the implementation of a centralized platform supporting 2,000+ services; slashed release cycles from ~3 days to ~2 hours (~97% efficiency gain) and delivered ~\$120M in annual savings
- Led strategic discovery and rollout of controlled-release models (canary deployments and traffic routing) across 5+ business units; reduced operational deployment incidents by ~30% through automated governance guardrails.
- Designed telemetry and performance analytics dashboards and explored AI agent workflows to analyze operational data, surface release bottlenecks, and prioritize enhancement opportunities, accelerating enterprise release cycles by ~20%.

Engineer I (August 2023-March 2025)

- Diagnosed root-cause friction in transactional-error handling and designed an enterprise data-editing application; streamlined support operations and reduced issue-resolution cycle times by ~30%.
- Evaluated cross-functional user needs across business units, prioritized 20+ high-impact platform enhancements, and translated requirements into product capabilities to align tech execution with business strategy.
- Onboarded and mentored 4+ interns and associate engineers, establishing standardized problem-solving frameworks and documentation standards across the organization.

Software Engineering Intern (Extended & Summer) (May 2022-June 2023)

- Partnered with SRE leadership to diagnose data-retrieval bottlenecks and engineered a transaction-search tool; accelerated data access across pricing, clearing, and settlement engines.
- Developed low-latency data access tools to eliminate manual SQL workflows, driving adoption across engineering teams.

SKILLS & INTERESTS

- **Strategy & Transformation:** Business Strategy, Process Redesign, Cost Optimization, Workflow Improvement, Strategic Planning, Change Management.
- **AI & Automation:** AI Agents, Agentic AI Workflows, Generative AI Integration, Prompt Engineering
- **Analytics & Data:** Performance Analytics, Quantitative Modeling, Data-Driven Decision Making, SQL, Python, AI Integration
- **Certifications:** AWS Certified Cloud Practitioner (AWS CCP)
- **Leadership & Stakeholder Management:** Cross-Functional Team Leadership, Requirements Gathering, Agile Frameworks, Client & Executive Alignment
- **Technical Knowledge:** JavaScript, React, Java, REST APIs
- **Interests:** Competitive Coding, Chess, Marathons
